**Request for Data on Local Worker Hiring Efforts**

Ever since the billion dollar Los Angeles County Medical Center Replacement Project, the Board of Supervisors has embraced local worker hiring efforts. Local worker hiring efforts can stimulate local job creation and economic opportunities for County residents on publicly financed public works projects.

The Board of Supervisors is currently evaluating entering into a Project Labor Agreement (PLA) for the Martin Luther King, Jr. Multi-Service Ambulatory Care Center (MLK – MACC) as a means of achieving optimal employment outcomes for Los Angeles County residents. At the same time, the Board is pursuing Local Worker Hiring efforts at the Harbor-UCLA Emergency Surgery Replacement Project and the South Health Center Replacement Project without the benefit of Project Labor Agreements.

Data currently being collected by the Department of Public Works on these voluntary efforts could shed insight on these deliberations. Further, this data could provide the general public with objective, empirical data by which to measure the effectiveness of the County's Local Worker Hire efforts absent a PLA.
